

Specification :

| Model | Reduction ratio | Rated torque at input 2000r/min (Nm) | Permissible peak torque at start/stop (Nm) | Permissible max. value of ave. load torque (Nm) | Instantaneous permissible max. torque (Nm) | Permissible max. input rotational speed (r/min) | Permissible ave. input rotational speed (r/min) | Transmission accuracy (arc sec) |                                 |
|-------|-----------------|--------------------------------------|--|---|--|---|---|---------------------------------|---------------------------------|
|       |                 |                                      |  |   |  |   |   | Back clearance (arc sec)        | Transmission accuracy (arc sec) |
| 20    | 80              | 40                                   | 87   | 55  | 149  | 6000  | 3500  | ≤ 20                            | ≤ 60                            |

HMHS-20-80-III
